US Patent Pending #62/260,708
International Patent Pending #PCT/US2016/064077

WHY EQUIPMENT ARMOR?

- Great visibility/High Optics Polycarbonate - unmatched by other guarding.
- Superior Stopping power – capable of stopping a ½ pound piece of hammer steel at 300 MPH. (UL 752 - Level 1 (9mm) and Level 2 (.357)).
- Easy to replace shield/ No down time on machine - takes less than 30 minutes.
- Hinged shield frame door - allows for easy access to windshield for cleaning.
- Maintains ROPS certification on all machines - bolts directly to existing cab bosses.
- Easily moved from machine to machine regardless of manufacturer, simply change out mounting brackets.
- Easy cleaning with mar-resistant coating simply spray with water.
- Average shield life span of one year plus.
